

Rubber Flooring Tiles 60 mm height

AVAILABLE COLORS:

Black

Red

Green

- This durable, slip-resistant, and highly impact-absorbing flooring is ideal for children's playgrounds, outdoor sports grounds, indoor gyms, pathways, and other areas.
- The tiles can be easily connected to each other.
- They are suitable for both outdoor and indoor use.
- The product contains no harmful or toxic substances and does not cause allergies.
- A variety of patterns can be created by combining flooring tiles of different colors.
- The tiles can be placed on the sand, gravel, asphalt, concrete or wood.
